Dear Mr. Baker;

This letter is in response to your letter of December 3rd regarding drainage control at Crown Asphalt Ridge in Vernal, Utah. We have completed the work on items one through four. Items five and six are the responsibility of the County as the work is on County land. We have talked to several people at the County and offered to help if needed.

If you have any questions or would like to discuss any details, please call me at (313) 256-6407.

Sincerely,

Dan O'Leary
